INTRODUCE

Frontend Software Engineer with 5+ years of experience building scalable web applications using React, Next.js, and TypeScript. Focused on building scalable, high-performance web applications with clean architecture and responsive user experiences. Experienced in building mobile-first applications, AI-powered internal tools, and cross-platform apps with Flutter.

Passionate about solving complex problems, bringing product stories to life through thoughtful user experiences, and building reliable products that deliver real value and make everyday experiences more convenient for users.

WORK EXPERIENCE

Frontend Engineer - Cho Tot Company

Oct 2025 – Jun 2026

Project: Buyer Experience Platform

- Developed and maintained buyer-facing features across four high-traffic marketplace platforms: Cho Tot, Nha Tot, Xe Tot, and Viec Lam Tot, serving **10+ million users**.
- Architected and optimized high-density listing pages by implementing pagination with IntersectionObserver-based infinite scroll, reducing the amount of data loaded per request and improving scrolling performance.
- Built a resilient multi-parameter search and filter system with bidirectional URL state synchronization, ensuring shareable URLs, accurate browser history navigation.
- Improved frontend performance across high-traffic pages by optimizing rendering, image loading, code splitting and JavaScript bundles, with **Core Web Vitals** used to identify and measure performance improvements.
- Applied an **AI-assisted Figma-to-code workflow** using Cursor and Claude to translate designs into production-ready React components, reducing implementation time by **70%**.
- Collaborated actively in cross-functional Agile/Scrum sprints with product managers, UX designers, backend engineers, and QA to consistently deliver performant features on schedule.
- **Tech stack:** React, Next.js, Typescript, Redux, Jotai, TanStack Query, GA4, REST API, Micro Frontend.

Frontend Engineer - VNG Company

Oct 2022 – Mar 2025

Project: Zalo Miniapp – Food Marketplace

- Developed a food ordering Mini App for mobile and merchant portal using Next.js and TypeScript.
- Implemented authentication, notifications with Socket, and payment integration through Zalo APIs.
- Built reusable product management modules including product catalog, variants, vouchers, and inventory management.
- Developed analytics dashboards and optimized frontend performance for better user experience.
- **Tech stack:** Next.js, TypeScript, Tailwind CSS, Ant Design, Zustand, zalo-miniapp.

Project: AIP – Internal Product

- Developed reusable frontend components for AI-powered services including OCR, Chatbot, and Stable Diffusion.
- Built file upload, camera capture, modal workflows, and interactive dashboards.
- Integrated Chart.js to visualize operational and analytical data.
- **Tech stack:** Next.js, TypeScript, Ant Design, Tailwind CSS, Zustand, Chart.js.

Frontend Developer - ExecutionLab

Oct 2021 – Oct 2022

Project: Web & mobile for tour guide

- Developed web & mobile UI for tour guide platform.
- Built landing pages, image upload & crop, and form systems.
- Ensured cross-device compatibility and responsive design.
- **Technologies:** SCSS, Next.js, TypeScript, React, Redux.

Frontend Developer - Datamart Viet Nam

May 2019 – Nov 2020

Project: E-commerce Platform

- Participated in building an e-commerce management website based on designs provided by UI/UX designers.
- Ensured responsive design across mobile and tablet devices, performed cross-browser testing for compatibility.
- Built the admin tool page with features including CRUD, payment calculations and order management.

- Fixed bugs upon request from the QA team.
- **Technologies:** HTML, CSS, jQuery, Bootstrap, Laravel (PHP, MVC), MySQL.

TECHNICAL SKILLS

- **Frontend:** Next.js, React, TypeScript, JavaScript, Zustand, Redux, Jotai, Tan query, Tailwind CSS, SCSS, Ant Design, Material UI, Bootstrap, shadcn/ui, micro frontend.
- **Backend Integration:** REST API, Laravel, PHP, Prisma, MySQL, Python + flask, firebase.
- **Mobile:** Flutter, Dart, zalo miniapp, Android development.
- **AI Integration & Tooling:** AI Integration, AI-Assisted Dev (Cursor, ChatGPT, Claude, Copilot, antigravity), Git & Version Control, Agile / Scrum, CI / CD Pipelines, Jira.

EDUCATION

University of Information Technology, VNU-HCM

2023 – 2027

Master: Computer Science

- The paper titled ***“Extracting Core Meaning from Legal Queries Using Semantic Technologies”*** was accepted for presentation at the 24th SOMET conference, held in May 2025, in Kitakyushu, Japan.
- The paper titled ***“LLM – based Solution for Dataset Construction and Knowledge Retrieval Support”*** was accepted by GOODTECHS 2025 (11th EAI International Conference on Smart Objects and Technologies for Social Good).

University of Information Technology, VNU-HCM

2015 – 2020

Engineer: Information Systems
